**Updated Notification on "Introduction of Charges under the Charging System for the Services rendered by the Research Department of the Coffee Board to the Coffee Industry"**

The Research Department of Coffee Board has recently revised the charges for evaluation of proprietary formulations of agro-inputs. The revised charges have come into effect from 27<sup>th</sup> June 2022.

The updated notification indicating the revised charges is enclosed herewith.

  
**DIRECTOR OF RESEARCH**

# I. Directly Chargeable Services:

| Services                                                                                                                  | Proposed Charge (Rs)                    |                                             |
|---------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|---------------------------------------------|
|                                                                                                                           | Small and medium grower sector (<20 ha) | Large growers and Corporate Sector (>20 ha) |
| <b>A) Supply of Planting material</b>                                                                                     |                                         |                                             |
| i) Seed Coffee (Rs/kg)                                                                                                    | 400                                     | 400                                         |
| ii) Rooted cuttings (clones) – Rs. per clone.                                                                             | 20                                      | 20                                          |
| iii) Seedling grafts (Ready for filed planting) – Rs. per graft                                                           | 20                                      | 20                                          |
| iv) Seedling graft (Topee stage) – Rs. per graft                                                                          | 5                                       | 5                                           |
| <b>B) Analytical services</b>                                                                                             |                                         |                                             |
| <b>1. Soil samples:</b>                                                                                                   |                                         |                                             |
| i) Analysis of soil samples for pH, OC, available P & K (Rs./sample)                                                      | 150                                     | 150                                         |
| ii) Soil - Secondary (Ca, Mg, S) & micronutrient (Cu, Zn, Fe, Mn, B) analysis (Rs./sample)                                | 375                                     | 400                                         |
| iii) Soil- pH, major, secondary & micronutrient analysis (Rs./sample)                                                     | 600                                     | 650                                         |
| <b>2. Leaf samples:</b>                                                                                                   |                                         |                                             |
| i) Analysis of leaf samples for major nutrients (NPK) (Rs./sample)                                                        | 800                                     | 850                                         |
| ii) Analysis of leaf samples for major (NPK), secondary Ca, Mg, S) and micro-nutrients (Cu, Zn, Fe, Mn, B) - (Rs./sample) | 1500                                    | 1600                                        |
| <b>3. Agrochemicals:</b>                                                                                                  |                                         |                                             |
| i) Liming material and Fertilizer samples (Rs./sample)                                                                    | 500                                     | 550                                         |
| ii) Copper Sulphate/Fertilizer containing single nutrient (Rs./sample)                                                    | 500                                     | 550                                         |
| iii) Organic manures (pH, EC, OC & NPK only) (Rs./sample)                                                                 | 600                                     | 650                                         |
| iv) Organic manures (pH, EC, OC, NPK, secondary & micro nutrients only) (Rs./sample)                                      | 1100                                    | 1200                                        |
| v) Chemical fertilizers (Rs./sample)                                                                                      | 1000                                    | 1100                                        |
| <b>4. Coffee effluents:</b>                                                                                               |                                         |                                             |
| i) Analysis of coffee effluents for pH, EC, BOD & COD (Rs./sample)                                                        | 750                                     | 800                                         |
| ii) Analysis of coffee effluents for total solids (Rs./sample)                                                            | 100                                     | 150                                         |
| <b>5. Green coffee:</b>                                                                                                   |                                         |                                             |
| i) Analysis of clean coffee samples for moisture status (Rs./sample)                                                      | 300                                     | 325                                         |
| <b>C. Supply of Bio-control agents:</b>                                                                                   |                                         |                                             |
| i) Mealy bug parasitoids (Rs. per 1000 nos.)                                                                              | 200                                     | 250                                         |
| ii) Bio-pesticide ( <i>B. bassiana</i> ) (Rs. per Kg culture alongwith media)                                             | 80                                      | 100                                         |
| iii) Bio-pesticide ( <i>B. bassiana</i> ) (Rs. per 10 lit liquid culture)                                                 | 80                                      | 100                                         |
| iv) Soil testing for nematodes (Rs. per sample)                                                                           | 650                                     | 700                                         |
| v) Soil testing for nematodes and population density (Rs. per sample including intellectual input)                        | 1500                                    | 1500                                        |
| vi) Supply of <i>Trichoderma</i> spp – (Rs. per kg)                                                                       | 150                                     | 175                                         |
| vii) Isolation of Fungi/bacteria per sample (Rs. per kg)                                                                  | 750                                     | 800                                         |
| viii) Identification of disease from specimen and advocating control measures (Rs. per sample)                            | 1000                                    | 1200                                        |
| <b>D. Supply of Traps &amp; Lures:</b>                                                                                    |                                         |                                             |
| i) Broca traps (25 traps + 250ml lure) (Rs)                                                                               | 600                                     | 600                                         |
| ii) Cost of Broca Lure (Rs. per litre)                                                                                    | 150                                     | 150                                         |
| iii) Stem Borer Pheromone – per trap with lure*                                                                           | 145                                     | 145                                         |
| iv) Cost of stem borer Pheromone lure (per unit)*                                                                         | 100                                     | 100                                         |
| <b>E. Supply of published literature</b>                                                                                  | Actual cost                             |                                             |
| * - Cost of stem borer pheromone trap & lure is subject to variation and depends on procurement cost of these items.      |                                         |                                             |

## II. Technical Services to the Agro-Input Firms

| Evaluation proprietary formulations  |                                                                                   |
|--------------------------------------|-----------------------------------------------------------------------------------|
| Category of firm                     | Charges per formulation per year per location<br>(exclusive of GST as applicable) |
| i. Indian start-ups/new entrepreneur | Rs.2,00,000/-                                                                     |
| ii. Indian firms/companies           | Rs.5,00,000/-                                                                     |
| iii. Multi-national companies        | Rs.10,00,000/-                                                                    |

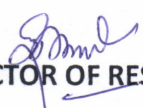

## III. Training Activities

|                                                                                                                                                                                                                                                                         |                                                |
